## Report of the Board of Health.

---

The past year has been very healthful. For the first time in many years we did not have the usual annual visitation of the grip, and there has not been a case of tuberculosis or a death from it reported during the year.

There have been five cases of measles, one of diphtheria, and five of typhoid fever. In December scarlet fever appeared among the pupils of the Patten school, but the schoolhouse and all suspected premises were thoroughly fumigated, and the school closed for a week, so that what might have been a serious epidemic was confined to a few cases.

We would respectfully call the attention of the School Board to the law relating to the vaccination of school children. It is their province to see that it is enforced.

W. L. HILLIARD.  
C. P. F. JOYCE.

## Library Report.

---

In making our annual report we have to congratulate the town upon the satisfactory condition and growth of the Library, and upon the appreciation and use of it by the citizens. It is the endeavor of the Trustees to make this a source of education, and to have eventually a good working Library that shall attract people to the town. This we believe to be possible if the town continues its present generous support.

The benefits of a good Library cannot be estimated in dollars and cents, and we all ought, as good citizens, to wish those who come after us to enjoy greater privileges than we have. Otherwise there would be no progress in the world. It is especially gratifying to note that the taste for books other than fiction is being cultivated, especially among the young.

While not many grown people are willing or care to change their taste and habit of reading, and hence in all Libraries fiction leads in the number of books taken out, among children and young people a taste for other and more solid reading can be and is cultivated by the access to and use of a good Library.

We have during the year added a new case for reference books and pamphlets in the back room, thus giving more space on the shelves in the main stack room. A rearrangement of the books will soon be necessary, as several of the departments have outgrown the space allotted.

By the Librarian's report it will be seen that the number of new books added is smaller than usual. This is explained by the fact that only part of the sum appropriated by the Sanborn Seminary has been expended.

There will be some 50 or 60 volumes added very shortly from this source, as the books were not purchased in time to be included in this report. We would recommend the same appropriation as last year, \$100.

Z. WILLIS KEMP,

## Report of School Board.

---

We realize afresh this year that the value of our schools depends upon the teachers. For the most part our teachers have done excellent work, and we are glad at the prospect of those of the winter term remaining with us longer.

In addition to the usual minor repairs, the seats of school-house No. 1 have been reversed, so that the pupils will no longer be obliged to face the bright southern light, or have their backs fanned by cold, north winds.

Another notable improvement at No. 1 is the new well. Although the excavation had to be made through almost solid rock, this well has been secured at an expense but little above the appropriation through the co-operation and generosity of Mr. John H. S. Sanborn, who, besides drawing the stone and helping in other ways, paid one-half the cost of excavating and stoning. As the water is of first class quality, not only the school district but the town is to be congratulated upon the results.
